KEY PROJECTS (Websites are live and links are available in portfolio)

1) Websites

- **Netflix clone**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb ,Redux
  - **Functionalities** : Login , sign up , Complete authentication , Navigation , stream movies , Logout

- **Linkedin clone**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb ,Redux
  - **Functionalities** : Login , sign up , Complete authentication , Navigation , add post , like post , comment on post , remove like , Logout

- **Gmail clone**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb ,Redux
  - **Functionalities** : Login , sign up , Complete authentication , Navigation , Send emails, Add as important , Add as starred , Check sent , Logout

- **Chatting app**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb, streamchat - **Functionalities** : Login , sign up , Complete authentication , Navigation , chat , Logout

- **Tinder clone**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb
  - **Functionalities** : Login , sign up , Complete authentication , Swipe users to match , chat with matched users , Logout

- **Weather app**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb , Autocomplete api , geolocation
  - **Functionalities** : Autocomplete city names , search weather info , Your current location weather info

- **Employee Portal**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Expressjs , Mongodb ,
  - **Functionalities** : Add , update , delete , view employees

- **Flight widget app**
  - **Technology Used** : HTML, CSS , JSX , React Js , Nodejs , Flightsapi
  - **Functionalities** : Get all the departing flights info

- **Zomato clone**
  - **Technology Used**: HTML5 , CSS3 , JSX , REACTJS

- **Apple clone**
  - **Technology Used**: HTML5 , CSS3 , JSX , REACTJS

- **Calculator**
  - **Technology Used**: HTML5 , CSS3 , JSX , REACTJS

- **Tour website**
  - **Technology Used**: HTML5 , CSS3 , JS

2) Apps :

- **Deliveroo app (android and ios)**
  - **Technology Used**: React native , css , mongoDb , Expressjs , Nodejs ,Redux
  - **Functionalities** : Choose restaurant of your choice , add meal to your basket , add or remove items from your basket , checkout details , animation loading screens

- **Tinder app (android and ios)**
  - **Technology Used**: React native , css , mongoDb , Expressjs , Nodejs ,Redux
  - **Functionalities** : Complete authentication , Login , signup , Swipe users , Chat with matched users , Logout

- **Uber app (android and ios)**
  - **Technology Used**: React native , css , mongoDb , Expressjs , Nodejs ,Redux , Autocomplete api , Routing
  - **Functionalities** : Choose your current location with autocomplete , Choose your destination , Get

navigation details like time needed and money required , Book a cab , Payment details

ACHIEVEMENTS

·A certificate in NCC

· First-Prize in debate competition.

· Played the interzonal football championship.

· Runner-up in state level badminton.
